This is an abstractn. It has a page number. (AU no longer wants you to provide an unnumbered abstract page.) The *Guide* says an abstract should not exceed 350 words. (If you do exceed this, then under the CAS option, the first page is numbered bottom center, and the rest are numbered top right.)

I want to “thank” my committee, without whose ridiculous demands I would have graduated so very much faster.

PREVIOUS WORK

Some other research was once performed.

2.1 Section

Some was good and some was bad.

2.1.1 Subsection

Some was neither good or bad.

Subsubsection

Surely mine will be better. Here is a bulleted list of reasons why.

- Reason 1. Some people hate the way test wraps in our bulleted lists, but that is what the Guide says we have to do—apparently based on Turabian. You can argue with CAS if you wish ...
- Reason 2.
- Reason 3.
- Reason 4.
